

SSS MISSION AND VISION CORPORATE STRATEGY

In the 03 December 2018 Strategic Planning, the Social Security Commission (SSC) reviewed the 2018 Performance Scorecard and gave directives which shall serve as the reference points for 2019 and the Performance Scorecard for 2019 and identified and approved under SSC Resolution No. 998-s.2018 the strategic directions for 2019:

1. *Increase the Fund life of up to at least 2042*
2. *Establish Accountability.*
3. *Improve service quality.*
4. *Improve corporate culture.*

In its 11 February 2019 Special Meeting, the SSC, assisted by Train Station as facilitator, focused on the Strategic Planning Workshop, which was the first step to be undertaken to achieve the goals for 2019 and the next five (5) years.

Lined up in the workshop is the review of the SSS mission (*To manage a sound and viable social security system which shall promote social justice and provide meaningful protection to members and their families against the hazards of disability, sickness, maternity, old age, death and other contingencies resulting in loss of income or financial burden*) and vision (*A viable social security institution providing universal and equitable social protection through world-class service*) whereby SSS executives were grouped and given the challenge to reflect what would be the wordings for the new mission and vision, taking into consideration the guidelines in assimilation – the use of simple words and the four identified directions/objectives for 2019. Thus, all the groups' insights/ suggestions/ideas were consolidated.

After an in-depth exchange of views during the 4 March 2019 board meeting when the existing and proposed SSS Mission and Vision Statements were presented, the SSC felt the need to come up with an SSS Vision Statement that will incorporate the essence of the four strategic directions for 2019 and revise the proposed SSS Mission Statement. The new SSS Mission and Vision Statements will be submitted to the Commission for its consideration.
