

MySSS

PENSION BOOSTER

PRIMER

Make that move and get that boost with

Indeed, retirement is one of the most awaited chapters in the lives of working individuals. To effectively prepare for this milestone event, the Social Security System (SSS) offers a savings scheme that is secured, tax-free, and affordable – the **MySSS Pension Booster**.

GET THAT BOOST!

This is the rebranded WISP Plus, a voluntary savings scheme, which is open to all SSS members regardless of their MSC, with one (1) posted contribution, and without filed final benefit claim, and for those applying for the issuance of the SS Number.

While the MySSS Pension Booster is open to all types of SSS members, it specifically targets mid- to high-income earners who have the financial capacity to invest more, such as self-employed and maritime professionals, Overseas Filipino Workers (OFWs), and corporate executives, among others. By investing their excess incomes, these members stand to receive higher savings returns and increased retirement income in the future.

Here are the most notable features of the MySSS Pension Booster:

- **Affordable savings scheme.** Members may contribute as low as **₱500.00** per payment, with no maximum limit (depending on the SSS-partner collecting agent).
- **High return of investment.** In 2023, the fund for the voluntary retirement savings scheme reached ₱386 million, with ROI of 6.97%. This year, the SSS targets to reach **7.2%** interest rate.
- **Tax-free investment.** Total contribution and investment earnings under the MySSS Pension Booster are tax-free.

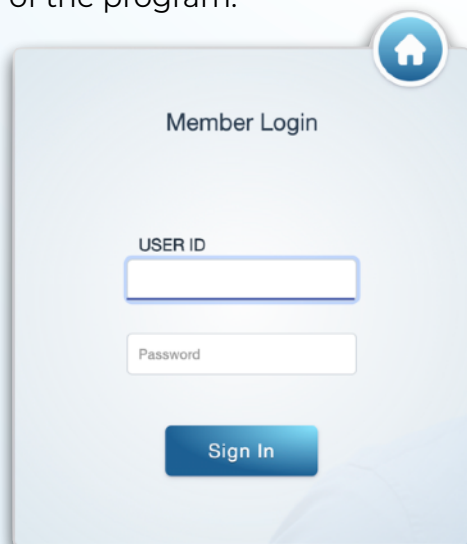

- **Easy and fast posting of contributions.** Contributions can be made online through the SSS website, SSS Mobile App, or SSS' Collection Partners' app using a Payment Reference Number (PRN), or over the counter through SSS branches with tellering facilities or collections partners' branch/office (local or abroad).
- **Flexible payment terms.** Members can contribute anytime depending on their capacity to save. However, payment to MySSS Pension Booster contributions must be done together with their regular SSS contributions.
- **Easy access to MySSS Pension Booster records.** Members can easily monitor their contributions through their individual My.SSS accounts as posting of contributions is real-time! Very soon, investment income shall also be visible in their My.SSS account.
- **Receive the total accumulated value (principal & investment income) tax-free!** This is paid out as a pension, as lump sum, or a combination of both, and on top of their final benefit under the regular SSS program.

Other benefits include:

- Withdrawal is allowed on the 1st year, but only in case of member's extreme hardship situation such as critical illness, involuntary separation from employment, repatriation from the host country (if an OFW), and other similar situations as determined by the SSS.
- Members enrolled in the program for 2 to 4 years, are also allowed to withdraw their savings partially or in full, but with a reduced income depending on the years of membership.
- Members have the option to withdraw, partially or in full, their savings from MySSS Pension Booster, from the 5th year in the program onwards.

NOW, MAKE THAT MOVE!

Members may enroll to the MySSS Pension Booster through their individual My.SSS accounts. Just log in to your account, click "Enroll to MySSS Pension Booster" under the Services tab, then read and accept the terms and conditions of the program.
