Web Application Firewall is an integral layer of security that protects our members' data when using My.SSS portals by filtering, monitoring and blocking any malicious attempts in the member portals' traffic (e.g. hacking, defacement, etc.). At present, the My.SSS Employer portal operates using two (2) units of borrowed Web Application Firewalls as our existing equipment can no longer accommodate the transactions made through My.SSS portals. To ensure the continuous operations of the My.SSS Member and Employer portals, procurement through NP – Emergency Cases is requested. This Update has no effect in the amount of APP.	2023-I-101-2 dated 11 December 2023	6th Update approved by PCEO Rolando Ledesma Macasaet thru BACSD memo dated 12 December 2023
