Justification: a) To fortify SSS' infrastructure and avert potential service interruptions. b) As of March 31, 2024, our storage infrastructure is operating at 97.32% due to the launch of several online services. These services have resulted in a significant rise in data submissions through our member portals, surpassing the 80% threshold. c) The exponential growth in database size poses a significant risk of overloading our existing storage potentially disrupting essential services.	2024-I-029-3 dated 25 April 2024	5th Update for the month of April approved by PCEO Rolando Ledesma Macasaet per BACSD memo dated 26 April 2024
