

**PROJECT: ACCELEROGRAPH FOR MAKATI BUILDING WITH PAGING ADDRESS SYSTEM**

**QUERIES/CLARIFICATIONS RAISED DURING THE PRE-BID CONFERENCE:**

|    | <b>Query/Clarifications</b>   | <b>TWG/BAC Reply</b>   |
|----|---|--|
| 1. | About SLCC, would you accept a single project which comprise only of accelerograph? There are projects that we only install accelerograph because the agency has already a paging system which where we tap the unit. | As part of the SLCC, we require the installation of an accelerograph with a paging address system.   |
| 2. | Would you also accept an aggregate project of accelerograph with alarm or paging system?  | The TWG responded to just submit this query in writing which shall later be answered in the form of a bid bulletin. (Please indicate a reply to this query)                    |
| 3. | Can we request a clearer copy of the layout of this project?<br><br>Can we also have a excel copy of the Bid Breakdown.   | Yes.<br><br>Yes.   |
| 4. | Is the 50% SLCC cover for both accelerograph and paging system or for accelerograph only?<br><br>Is it okay to combine it with another supplier?  | The SLCC covers both the Accelerograph and Paging System.<br><br>No. Only one company with SLCC similar to this project equivalent to at least fifty percent (50%) of the ABC. |

**WRITTEN QUERIES:**

| 1 | <b>FROM SALT</b><br><br><b>1. Completed Contracts/SLCC</b><br><b>For this purpose, contracts similar to: Supply, delivery and installation of earthquake recording instruments (Accelerograph) with paging address system</b> |                      |

|  |  |   |
|--|--|---|
|  | <p>Request to accept Single Largest Completed Contract for Earthquake Recording Instrument (Accelerograph) only, without paging address system.</p> <p>Reason: Most of ERI projects involve alarm system only as per DPWH minimum requirement. Some buildings have their existing paging address system and requires interoperability and compatibility only.</p> <p><b>2. Specification</b><br/> <b>For item nos. 2 and 3: The bidder must submit certification from the manufacturer</b></p> <p><b>Item 2: For IP Installation (with listed materials)</b></p> <p><b>Item 3: For Fiber Optic Installation (with listed materials)</b></p> <p>May we clarify if the required certification from the manufacturer is for the bidder's distributor certificate?</p> <p>If so, may we respectfully request that certification will only be provided for major components of the paging system, and not to include network devices, cables and connectors?</p> <p>For the network devices, cables and connectors, may we instead issue a sworn statement or notarized affidavit that we will supply those items, the same as in the Item #1 under the IP/PA Alarm system?</p> | <ul style="list-style-type: none"> <li>- Pursuant to Section 23.4.1.3 of the 2016 revised IRR of RA 9184, the prospective bidder must have completed, within the period specified in the Invitation to Bid, an SLCC that is similar to the contract to be bid, and whose value, adjusted to current prices using the Philippine Statistics Agency (PSA) consumer price indices, must be at least fifty percent (50%) of the ABC.</li> <br/> <li>- Acceptable.</li> <br/> <li>- Acceptable provided that the materials are compatible with the IP/PA system.</li> <br/> <li>- Acceptable.</li> </ul> |

| 2 | <p><b>FROM MULTI-LINE</b></p> <p>We would like to clarify the requirements for the supply, delivery, and installation of earthquake recording instruments (Accelerograph) for the Single Largest Completed Contract (SLCC), as stipulated in Section III of the Bid Data Sheet under ITB Clause 5.3.</p> <p>We kindly request the BAC Chairman, BAC Members, and Technical Working Group (TWG) to consider removing the specification “with paging address system” and revising the SLCC requirement to focus solely on the supply, delivery, and installation of earthquake recording instruments (Accelerograph). This request is based on the following reasons:</p> <ol style="list-style-type: none"> <li>1. The Accelerograph and Paging System is a independent system. It is usually independent from other system. This is not the usual case for bids involving Accelerograph, most bidders don't have Completed contract with combined contract of Accelerograph system and Paging System package.</li> <li>2. Contracts similar to the Project will mainly involve the Supply and installation of Accelerograph. Based on our estimation, 70% of the work here pertains to the Supply and installation of Accelerograph, with only 30% allocated to the Supply and installation of Paging System.</li> </ol> | <p>- Pursuant to Section 23.4.1.3 of the 2016 revised IRR of RA 9184, the prospective bidder must have completed, within the period specified in the Invitation to Bid, an SLCC that is similar to the contract to be bid, and whose value, adjusted to current prices using the Philippine Statistics Agency (PSA) consumer price indices, must be at least fifty percent (50%) of the ABC.</p> |
