1	If SSS can ease the conditions under warranty (Special Conditions of Contract 5.1)? As a standard warranty, hardware issued by SMART shall be subject to a fourteen (14) day replacement warranty commencing on the date of delivery of the hardware. This warranty covers inherent defects only. After the 14- day period, the vendor's warranty terms and conditions shall apply (or 1-year repair warranty), and all warranty claims shall be made directly to the vendor's accredited service centers. Thank you and hoping for a favorable response.	The winning bidder may comply to any of the two provisions below whichever is applicable: <ol style="list-style-type: none"> <li>1. 2-year warranty as stated in the SCC 5.1 of the bidding document;</li> <li>2. or 1-year repair warranty and 14-day replacement provided the winning bidder will provide an additional 4 units of cellular router that will serve as service unit.</li> </ol> This amends Section V. Special Conditions of the Contract, clause 5.1.
