

PROJECT: REPLACEMENT OF DAMAGED ROOFING AND INSTALLATION OF AIR VENTILATORS AT FCA-5 PROPERTY

QUERIES/CLARIFICATIONS RAISED DURING THE PRE-BID CONFERENCE:

	Query/Clarifications	TWG/BAC Reply
1	<p>Is the submission of brochures will be also submitted during the Bid Openings?</p> <p>Is it not right that the submission of brochures will be only required for the winning bidder?</p>	<p>Yes, it will be submitted together with your cost proposal during the Bid Opening.</p> <p>The submission of brochures is the standard of SSS, and the purpose of this brochure submission is to make sure that the offers of the prospective bidders matched the technical specifications required by the SSS.</p>
2	<p>The permit you are referring to here is from the Local Government Unit (LGU)?</p> <p>If ever within the given one hundred twenty (120) calendar days, the permits are still on process will the project be implemented?</p> <p>Based on our experience, processing permits in the LGU is a tedious one. We are afraid that the project may already be finished and yet the permits are still in process.</p>	<p>Yes, the winning contractor will be the one to process the necessary permits from the LGU.</p> <p>The 120 calendar days will begin upon receipt of the Notice of Proceed, which includes the securing of necessary permits by the winning bidder.</p>
3	<p>About the Bill of Quantities (BOQ), only the yellow shaded area is where we put the value. However, the total project cost is not shaded can we also put it manually?</p> <p>Will there be an Excel file available?</p>	<p>It will automatically reflect the total project cost once you input the value in the yellow shaded area.</p> <p>Yes, we will issue the Excel file to the bidders.</p>
