150 years of safety: Since 1872, TÜV Rheinland's mission has been to make technology safe for people and the environment. From the steam engine to digitalization, what started as a regional association for the monitoring of steam boilers has evolved into a global testing service provider. Today, TÜV Rheinland ensures safety and quality in almost all areas of business and life. This shared commitment unites more than 20,000 employees. They generate annual revenues of 2 billion euros. TÜV Rheinland's experts test technical systems and products around the globe, support innovations in technology and business, train people in numerous professions, and certify management systems according to international standards. By ensuring safety and sustainability, TÜV Rheinland is also shaping the future. Since 2006, TÜV Rheinland has therefore been a member of the United Nations Global Compact for more sustainability and against corruption.
