

**PROJECT:           VARIOUS DIGITAL PROJECTS (LOT 3 -INFORMATION KIOSK)  
(RE-ADVERTISEMENT)**

**QUERIES/CLARIFICATIONS RAISED DURING THE PRE-BID CONFERENCE:**

<b>Item No.</b>	<b>Query/Clarifications</b>	<b>TWG/BAC Reply</b>
1	Regarding the Special Conditions, particularly the supply and installation of appropriate data wiring, do you have specific requirements for this?  Are you requiring three (3) units for this lot? There is some confusion as the way it stated in the Bid Documents in page 10.	SSS requires indoor-rated multi-mode fiber optic cable compatible with SSS network.  Only one (1) unit is required.
2	Do we have specific design for housing/casing of the kiosk?  Is it vertical or horizontal?	No specific design. Kiosk must be durable and tamper-proof.  Orientation: horizontal
3	For verification, is the content for the kiosk will be provided by SSS?	Yes, SSS will provide content for uploading. Supplier to ensure compatibility.
4	Is the connection thru LAN or via USB?	LAN connection.

**WRITTEN QUERIES: No Written Queries**
