

PROJECT: VARIOUS SEMI EXPENDABLE EQUIPMENT FOR CY 2025

A. QUERIES/CLARIFICATIONS RAISED DURING THE PRE-BID CONFERENCE:

	Query/Clarifications	TWG/BAC Reply
1	Regarding the paper cutter board, is it possible to change the size from 15”x12” to 12”x15”?	We maintain our requirement.
2	Would it be possible to separate the paper shredder from Lot 4? We are concerned that our SLCC may not be able to accommodate the entire lot due to its higher ABC.	We maintain our requirement.

B. WRITTEN QUERIES:

	Query/Clarifications	TWG/BAC Reply
1	Regarding to the query during the PRE-BID Conference about the size of paper cutter board: How about higher sizes, like 15”x18”?	We maintain our requirement.
2	Automatic Voltage Regulator: May we ask if we can offer a unit that includes a multi-purpose socket made of aluminum?	This amends Item No. 2 of the Technical Specifications for Lot 4. Multi-purpose socket made with copper or aluminum is acceptable.
3	Emergency light: May we ask if we can offer a unit with housing made of polycarbonate material?	This amends Item No. 4 of the Technical Specifications for Lot 4. Housing heavy-duty galvanized steel with epoxy powder casting or polycarbonate housing is acceptable.
4	Refrigerator 5 CU FT: May we ask if we can offer a unit with higher capacity (more than 5 cu ft.)?	This amends Item No. 7 of the Technical Specifications for Lot 4. Only 5 or 6 cu. ft. is acceptable.
