“Annex A”

BB No.2026-023
dated 18 March 2026

PROJECT: SATELLITE INTERNET FOR SSS E-WHEELS**QUERIES/CLARIFICATIONS RAISED DURING THE PRE-BID CONFERENCE:**

	Query/Clarifications	TWG/BAC Reply
1	For Item No. 3 of the Technical Specifications, which requires at least 45 Mbps download speed, is it acceptable to relax this requirement to 40 Mbps?	No. We maintain our requirement.
2	Under Item No. 1 of the technical specifications—supply and delivery of LEO Satellite Internet to the SSS Main Office—does the scope also include installation at different sites? To further clarify, does the bidder's scope of work cover supply, installation, and maintenance?	Yes. The scope of work covers supply, installation, and maintenance of the Satellite Internet service. All units shall be delivered to the SSS Main Office, as indicated in the technical specifications.
3	May I ask what is the required data allocation for this project?	There is no required monthly data allocation for this project. However, the bidder must ensure that the minimum download and upload speeds specified in the SLA are consistently maintained for the entire duration of the contract, regardless of actual data usage.
4	Could you clarify what services are included? Because with other enterprise, we usually provide data with caps. Would it be possible for you to specify the required data allocation so we can scope it more accurately?	Please refer to items 2 and 3.
5	Regarding ISO certification, is it correct that it is 9001 and not 90001?	Yes.
