| | We would like to seek clarification regarding the Single Largest Completed Contract (SLCC) requirement. Can a contract for the Supply, Delivery, and Installation of CCTV Systems be considered a similar contract for this project on Preventive Maintenance Services of CCTV Systems, considering that preventive maintenance is commonly included as part of the installation and delivery scope?<br><br>In addition, will the evaluation of the SLCC be based on the similarity of the contract and compliance with the required 50% of the ABC? Since standalone preventive maintenance contracts for CCTV systems are typically of relatively low value, may we respectfully request the BAC's consideration of recognizing contracts for the supply, delivery, and installation of CCTV systems, which include preventive maintenance components, as acceptable similar contracts for purposes of meeting the SLCC requirement? | The SLCC should be related to CCTV maintenance since this project is for the Preventive Maintenance Services (PMS) of CCTV Systems. Contracts for the supply, delivery, and installation of CCTV systems may be considered as similar contracts; provided that the PMS value of the contract is quantifiable and verifiable and must meet the required amount of at least 50% of the ABC. |
| | We would like to inquire whether bidders who have already purchased the bidding documents under the previous bidding are still required to purchase a new set of bidding documents for the re-advertised project. | If the bidder will participate in the re-advertised project, there is no need to purchase another set of bidding documents. The previous payment for the bidding documents will still be honored. |
